

NAVIGATOR ROOM PROOFING

Benefits of Navigator ROOM Proofing

- ▶ **Tightly integrates with Navigator Workflow**
Allows control of ROOM proofing settings from anywhere on network
- ▶ **Easy to use**
Intuitive user interface for descreening, recombine, colorization
- ▶ **Flexible**
Accepts TIFF input from Xitron or third-party workflows
- ▶ **Plug-in or standalone**
Add to existing Navigator RIP or create a standalone proofing solution

Navigator ROOM Proofing Features

Available as an option for any Navigator Workflow, ROOM (RIP Once, Output Many) Proofing provides superior results for your inkjet output. By generating the proof from the same high-resolution bitmaps used to image the printing plates, Navigator's ROOM proofing option ensures accurate, predictable, and consistent results.
