***Interface Notes**

PCI-U indicates device is supported by Xitron Universal PCI card for 3.3/5 volt slots. PCI-5 indicates device requires a 5-volt PCI slot. SCSI-5 indicates 5-volt slot for SCSI required.

PIF option applies to newer units only. Be certain to confirm interface PRIOR to placing an order.

USB for CTP or film recorder refers to the Xitron USB interface for use with Navigator PC or Raster Blaster. Where available, USB will be supplied.

PCI Express is for Mac Intel only.

****TIFF CATCHERS**

Devices may be driven with TIFF Catchers provided by the output device manufacturer. TIFF Catchers are interfaces that send raster data to an output device. Check with your manufacturer for availability. Not all TIFF catchers have been tested with Xitron products.

Inkjet, Laser and LED Printers

Interfaces: PP=parallel port, N=Network, USB, FW=FireWire
