TB09-003: NAVIGATOR 8.1 R0

Navigator 8.1 r0 is compatible with the following Windows operating systems:

- Windows Vista Business Edition
- Windows Vista Enterprise Edition
- Windows Vista Ultimate Edition
- Windows 2000 Server SP3, SP4 (not compatible with Xitron USB device interfaces)
- Windows 2000 Pro SP3, SP4 (not compatible with Xitron USB device interfaces)
- Windows 2003 Server SP1, SP2
- Windows 2008 Server 32-bit
- Windows XP Pro SP2

Below is information regarding RIP compatibility and functionality with specific operating systems.

Windows Server 2008 32-bit

This platform is supported from the Navigator RIP v8.0r8, or later, as long as version 7.5 of the Safenet drivers (dongle drivers) are used.

Windows Vista 32-bit features

The RIP does not support the use of any optional features of Windows Vista (for example, BitLocker Encryption on Windows Vista Ultimate).

Windows 7 Professional 32-bit

Compatibillity testing is underway and will be completed in Q1-2010.

Windows 64-bit operating systems in general

Navigator is not currently compatible with any Windows 64-bit operating system including:

- Windows XP 64-bit**
- Windows VISTA 64-bit**
- Windows Server 2008 64-bit**
- Windows Server 2008 R2 64-bit only**
- Windows 7 64-bit**
