Xitron Adds Dynagram's inpO2 Imposition To Workflow Offerings

Enhances imposition options of Navigator GPS and Xenith 4PDF

Ann Arbor, Michigan and Quebec, Canada – January 22, 2008: Xitron, a leading provider of RIP and workflow systems for popular plate and film output system today announced an OEM distribution agreement with Dynagram, the leader in innovative imposition technologies for its inpO2 imposition products. Under this agreement, Xitron will offer the inpO2 imposition product family along with its Xenith 4PDF and Navigator GPS solutions.

inpO2 adds exceptional imposition features and benefits for Xitron workflow users including:

- Imposition solution for Acrobat Standard and Pro 8 users
- Easy and compact Wizard interface
- 100% WYSIWYG with fast learning curve
- Support for any type of press or printing device
- Export of fat PDF files or JDF layouts

"inpO2 offers Xitron users increased functionality and flexibility to meet their imposition requirements," stated Jim Thrush, President of Xitron. "We have worked with Dynagram for several years and are pleased to be able to provide this latest imposition offering to our user base."

Navigator GPS is a powerful entry-level workflow expanding the functionality of industry renowned Navigator RIP by providing extensive job management and RIP control at the prepress operator workstations. Xenith is a robust, feature-rich workflow providing even greater capabilities to commercial printers with more advance workflow requirements. Xitron has more than 15,000 workflow systems and interfaces driving the pre-press industry's most popular new output devices as well as its legacy systems, prolonging their life and protecting customer's investments.

“We’re excited about growing our relationship with Xitron, whose technical expertise and dedicated customer support are high priorities,” said Francois Guerard, CEO of Dynagram. “Xitron offers some of the most popular prepress workflow solutions on the market and inpO2 is a perfect fit for their customers” continues Mr. Guerard.

Xitron users will select between the full-featured inpO2 Standard Edition or inpO2 ATOM, the entry-level edition. inpO2 standard edition is a high-end imposition tool that creates sophisticated impositions and imposition layouts. inpO2 ATOM is designed for small and medium sized commercial printers and provides a powerful, yet simple approach to imposition. As a plug-in to Acrobat 8.0, both editions run in a familiar environment making them easy to learn, flexible and tightly integrated in a PDF workflow.

inpO2 Standard Edition and inpO2 ATOM will be available in the first quarter of 2008 directly from Xitron and through their network of dealers worldwide. All inpO2 editions are available for the Macintosh and Windows platforms and are compatible with Acrobat 8.0.

Xitron products are available through a network of OEMs, distributors, dealers, and system integrators worldwide. Xitron RIPs and workflow solutions drive more than 250 different output devices ranging from black and white and color proofers to film imagesetters and the latest in CTP and direct-to-press systems. With shipments of more than 15,000 RIPs, Xitron is the largest independent provider of RIPs in the market. For more information about Xitron products, visit Xitron on the web at www.xitron.com.

About Xitron

Xitron, a well-known brand within the software and interface group of Vanguard Graphics International, develops productive, flexible workflow systems and interfaces designed to drive the prepress industry’s most popular new output devices as well as legacy systems. This prolongs their life and protects our customers’ investments. Xitron’s Navigator RIP, Raster Blaster TIFF Catcher, and Xenith Workflow solutions are recognized as pre-press standards. Built around core technology from Global Graphics and Adobe Systems, Xitron engineers continue to develop stable, yet flexible solutions for the graphic arts market, driving over 250 different models of imagesetters, proofers, platesetters, and digital presses. For more information about Xitron’s products and OEM opportunities, or becoming a Xitron dealer, visit us at www.xitron.com.

About Dynagram

Dynagram was founded in 1994 and is the technology powerhouse behind a wide choice of open imposition solutions for commercial printers of all sizes. Dynagram products are sold worldwide through a network of graphic arts resellers and are bundled with select RIPs and workflow solutions for a variety of printing markets. Dynagram has offices in San Diego, CA and Quebec City, Quebec. For more information on Dynagram, our products or our partners, please visit our web site at www.dynagram.com.
