## Xitron Announces Upcoming Dealer Training Courses

*Courses cover basic and advanced RIP, workflow and web-to-print solutions*

**Ann Arbor, Michigan – April 15, 2009** – Xitron, the prepress industry's leading independent developer and integrator of Raster Image Processors, RIP management software and workflow solutions today announced a series of Dealer Training courses for May at its world headquarters in Ann Arbor, Michigan.

Courses offered cover fundamentals and advanced operations of Xitron's Navigator GPS workflow, which is based on Harlequin core technology; Xenith Sierra, a workflow based on the Adobe PDF Print Engine; and PRINTERnet, Xitron's web-to-print solution for small to medium size printers. Scheduled courses are:

- Xenith Sierra – May 11-15
- PRINTERnet – May 18-20
- Navigator GPS Basic – June 1-3
- Navigator GPS Advanced – June 3-5

"Xitron prides itself in the quality of support provided not only directly by our technical support staff but also by our worldwide dealer network," stated Mark Eisenschenk, Xitron's President and Chief Executive Officer. "Ongoing education, training and certification programs for our dealers are an essential part of our successful support program."

Dealers wishing to attend these classes may do so by signing up online through the company's website or by contacting their Xitron Sales Manager.

Xitron products are available through a network of OEMs, distributors, dealers, and systems integrators worldwide. Xitron RIPs and workflow solutions drive more than 250 different output devices ranging from black and white and color proofers to film imagesetters and the latest in CTP and direct-to-press systems. With shipments of more than 16,000 RIPs, Xitron is the largest independent provider of RIPs in the market. For more information about Xitron products, visit Xitron on the web at [www.xitron.com](http://www.xitron.com).

**About Xitron**

Xitron, a well-known brand within the software and interface group of Vanguard Graphics International, develops productive, flexible workflow systems and interfaces designed to drive the prepress industry's most popular new output devices as well as legacy systems. This prolongs their life and protects our customers' investments. Xitron's Navigator RIP, Raster Blaster TIFF Catcher, and Xenith Workflow solutions are recognized as pre-press standards. Built around core technology from Global Graphics and Adobe Systems, Xitron engineers continue to develop stable, yet flexible solutions for the graphic arts market, driving over 250 different models of imagesetters, proofers, platesetters, and digital presses. For more information about Xitron's products and OEM opportunities, or becoming a Xitron dealer, visit us at [www.xitron.com](http://www.xitron.com).
