Xitron Provides Referrals for JetPlate Users

Company partners with CtP providers to offer new CTP solutions

Ann Arbor, Michigan – November 30, 2009 – [Xitron](#), the prepress industry's leading independent developer and integrator of Raster Image Processors, RIP management software and workflow solutions, today announced that it will provide referrals to JetPlate CtP users who have been left without a viable prepress solution following JetPlate's bankruptcy and the related discontinued availability of plate material used by these systems.

"Xitron developed the RIP used with JetPlate systems," stated Mark Eisenschenk, Xitron's President and CEO. "And although Xitron does not sell a CtP solution of its own, several Xitron partners do offer CtP solutions and have expressed interest in assisting JetPlate customers in affordably transitioning the platemaking needs to new solutions."

JetPlate users interested in having a Xitron CtP partner contact them should visit the Xitron website at www.xitron.com/jetplate.htm. Users will complete a short contact form and this information will be used solely to determine an appropriate Xitron CtP partner best suited to assist with a new solution.

Xitron offers Navigator RIP and workflow solutions through its network of OEMs, distributors, dealers, and system integrators worldwide.

###

About Xitron

Xitron develops flexible workflow systems and interfaces to drive the prepress industry's most popular new and legacy output devices, prolonging our customers' investments. Xitron's Navigator RIP, Raster Blaster TIFF Catcher, and Xenith Workflow solutions are recognized as pre-press standards. Built around core technology from Global Graphics and Adobe Systems, Xitron engineers continue to develop solutions for the graphic arts market, driving over 250 different models of imagesetters, proofers, platesetters, and digital presses. With shipments of more than 20,000 RIPs, Xitron is the largest independent provider in the market. For more information about Xitron, visit us at www.xitron.com.
